

# FORESTS FOR THE FUTURE: ADAPTIVE MANAGEMENT STRATEGIES FOR LANDOWNERS

**Date:** Saturday, October 26  
**Location:** The Holden Arboretum Working Woods  
**Time:** 8:00 AM - 5 PM; field sessions at The Holden Arboretum and Penitentiary Glen in afternoon  
**Cost:** \$10; lunch and refreshments included

Addressing the many challenges of private woodland management can be overwhelming. This workshop will provide practical ways to address forest threats and stressors. Participants will ...

- Learn how climate and other stressors, like invasive species, threaten forest health and wildlife habitat and what you can do about it
- See how The Holden Arboretum and park districts in the region are implementing adaptive forest management practices
- Identify goals and discuss potential management strategies for your property with other landowners
- Obtain hands-on tools to better monitor and take care of your woods
- Gain an understanding of forest management cost-share programs available to you and how to apply

Registration limited to 50 people. CML (certified master logger) – 2 hrs credit.

**Please register by October 11 at [crwp.org](http://crwp.org) or call Chagrin River Watershed Partners at 440-975-3870.**
