Proposal for Little Lending Library Hemlock Hills

Free standing self sustaining Little Lending Libraries are located throughout the United States including various locations in Ohio. Local examples are Cleveland Heights, Frorhing Meadows in Geauga County and indoor locations such as Yours Truly Restaurant in Willoughby. This simple little concept has fostered reading literacy, shared common interest and a sense of community.

I propose two Little Lending Library Sites for Hemlock Hills and this has received an initial positive response form HHHA Board members. I propose one location at the Hemlock Hills Recreation area and one at "The Triangle" which intersects Hill Drive and Hook Hollow Road. At this time HHHA will have the first lending library location located at the pool recreation area this summer. As for the second location, "The Triangle" is owned by the township who has maintained a successful good faith partnerships with H.H.H.A who grooms and landscapes the area with homeowners dues. I am requesting Township approval for a Little Lending Library at "The Triangle " location

We currently have a Hemlock Resident who has volunteered to complete the construction and design will include HHHA Board approval with recommendations to maintain the current design signage themes . Precaution will be taken to use materials that are easily maintained, esthetically pleasing and safe . Hemlock Residence are quite active and it is anticipated that the site will be primarily used by those walking throughout the neighborhood. We hope to have your approval and your time, consideration and community service is appreciated.

Sincerely
Tonda Sill HHHA Resident
